## EXPERIENCE

### Cloud Nexus

May 2026 – Present

*DevOps Associate Intern*

*Bhopal*

- Worked on DevOps tasks involving **AWS**, **Docker**, **Kubernetes**, **Terraform**, GitHub Actions, and Argo CD.
- Assisted in repository-level configuration cleanup by reviewing default templates and environment-specific values.
- Worked with CI/CD workflows, Docker-based deployment flow, GitHub Actions, and GitLab-based source control concepts.
- Gained hands-on exposure to **AWS Landing Zone**, AWS Organizations, Control Tower, IAM, and account management.
- Documented deployment flows, infrastructure components, and troubleshooting steps for team reference.

## PROJECTS

### AWS Landing Zone Foundation Setup

Jul 2026

*AWS Control Tower, AWS Organizations, Account Factory, IAM Identity Center, SCP, Terraform*

- Set up an **AWS Landing Zone** foundation using AWS Control Tower and AWS Organizations for multi-account governance.
- Created and organized **Organizational Units** and AWS accounts using Account Factory.
- Configured **IAM Identity Center** users, groups, and permission sets for secure account access.
- Worked with **Service Control Policies** to apply preventive guardrails and restrict unwanted AWS actions.
- Documented the landing zone flow including management account, audit account, log archive account, OUs, controls, and access management.

### Three-Tier Application Deployment on AWS

Jun 2026

*Terraform, AWS ECR, ECS Fargate, CloudWatch, Docker, GitHub Actions*

- Provisioned AWS infrastructure using **Terraform modules**, including VPC, ECR, ECS Fargate, IAM, and CloudWatch.
- Configured Amazon **ECR** for Docker image storage and **ECS Fargate** for running containerized services.
- Built a CI/CD pipeline using **GitHub Actions** to build, tag, push Docker images to ECR, and deploy to ECS.
- Verified ECS task execution, container status, CloudWatch logs, and public application access.

## CODING PROFILES

- Solved **200+** coding problems on **LeetCode**.
- Authored **250+** solutions in **Java** on **CodeChef**.
- Completed **100+** problems on **GeeksforGeeks**.
